# App Trouble Shooting

## All Score have been entered

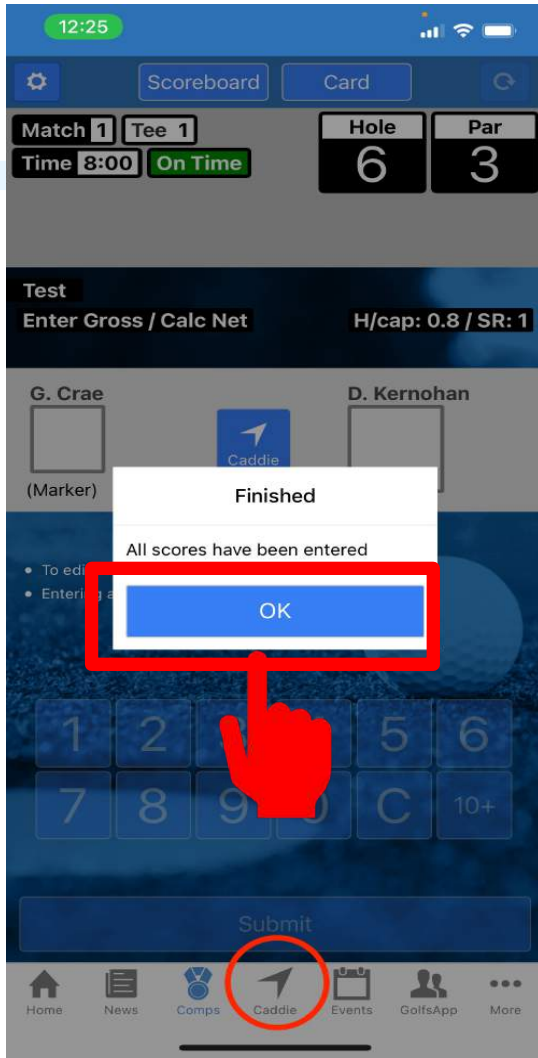

Should a player lost data/WIFI connection or click on the Caddie button at the bottom of the page during scoring on the App, it can sometimes cause an "all scores have been entered message" error to appear.

**Note-** the Caddie button with the scoring section should be used as this will take you to the same hole you are scoring on do not press the caddie at the bottom of the page as this exits scoring.

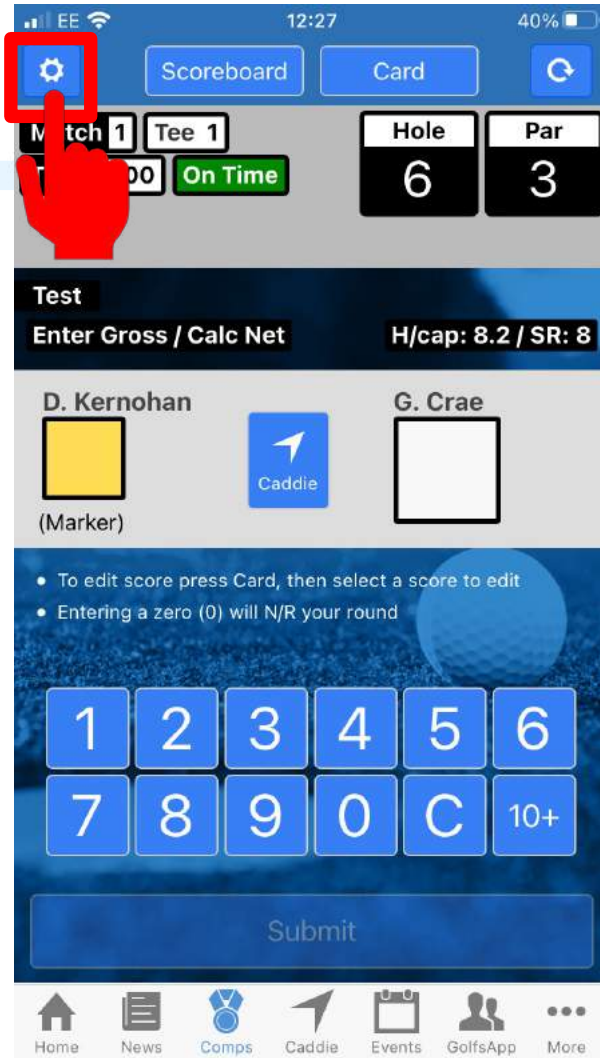

To get back to the score entry scorecard please follow the simple steps over the next pages

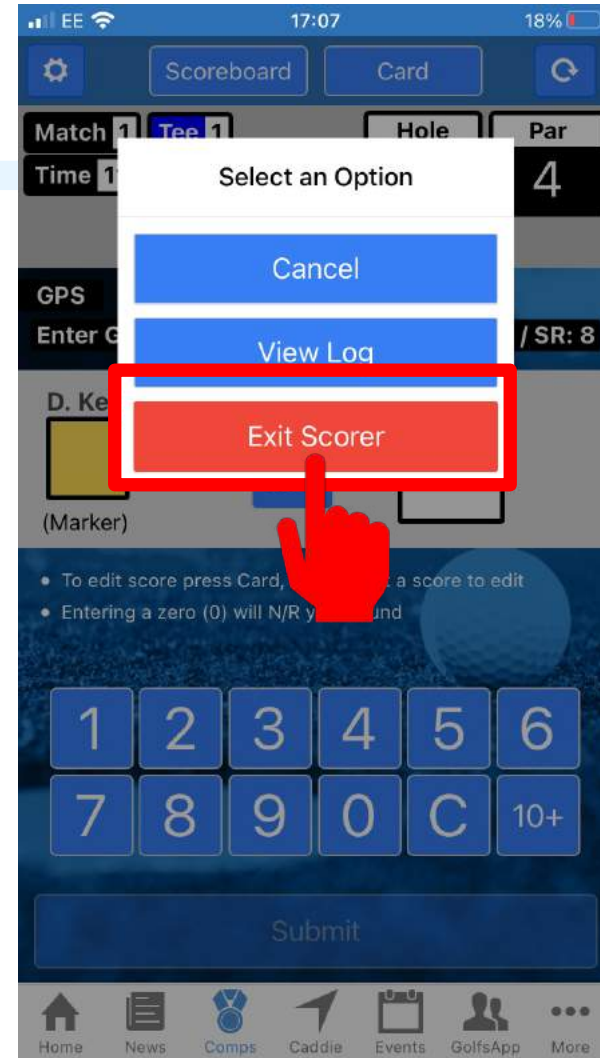

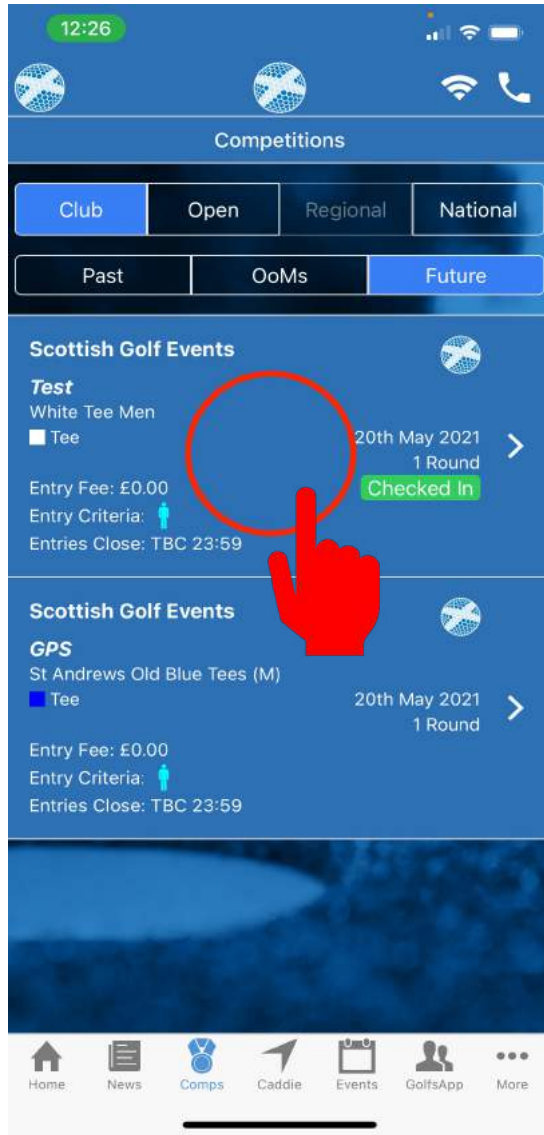

1. Select ok from the finished message.

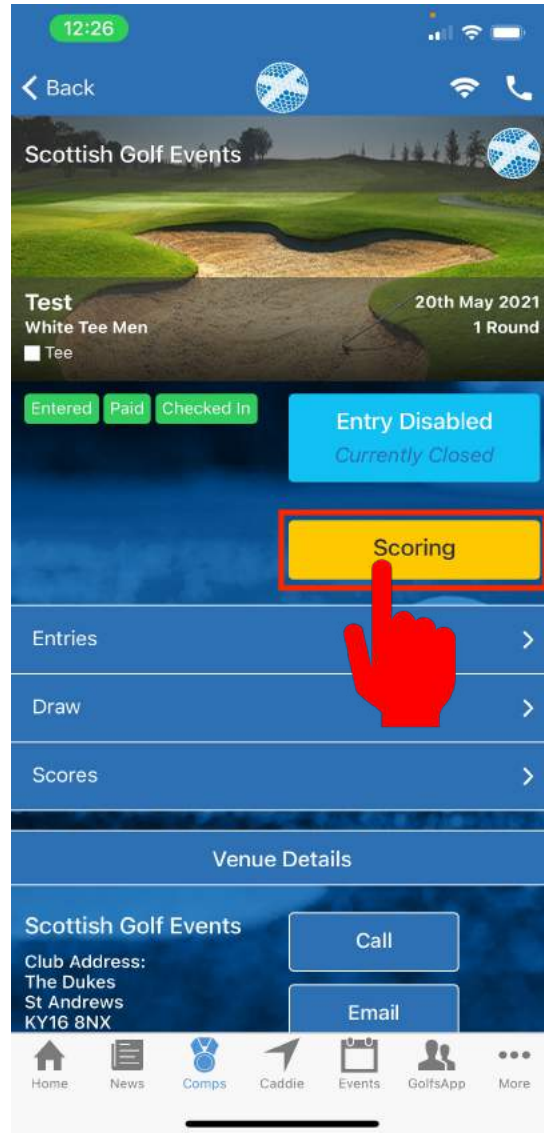

2. Press and hold the wheel cog top left.

3. Select exit Scorer.

4. Go back into the competition

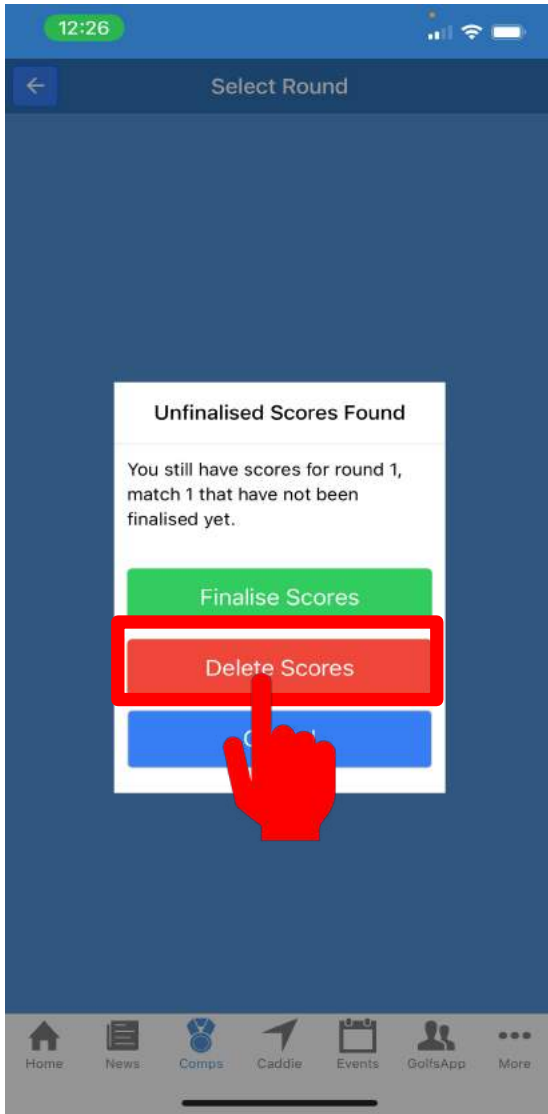

5. Select the scoring tab

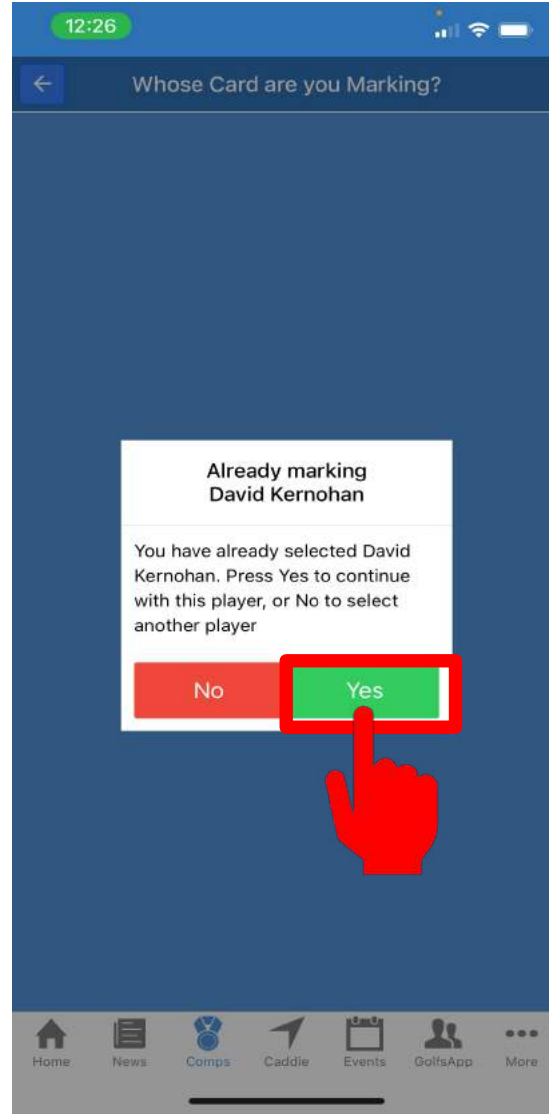

6. Select Normal Scoring

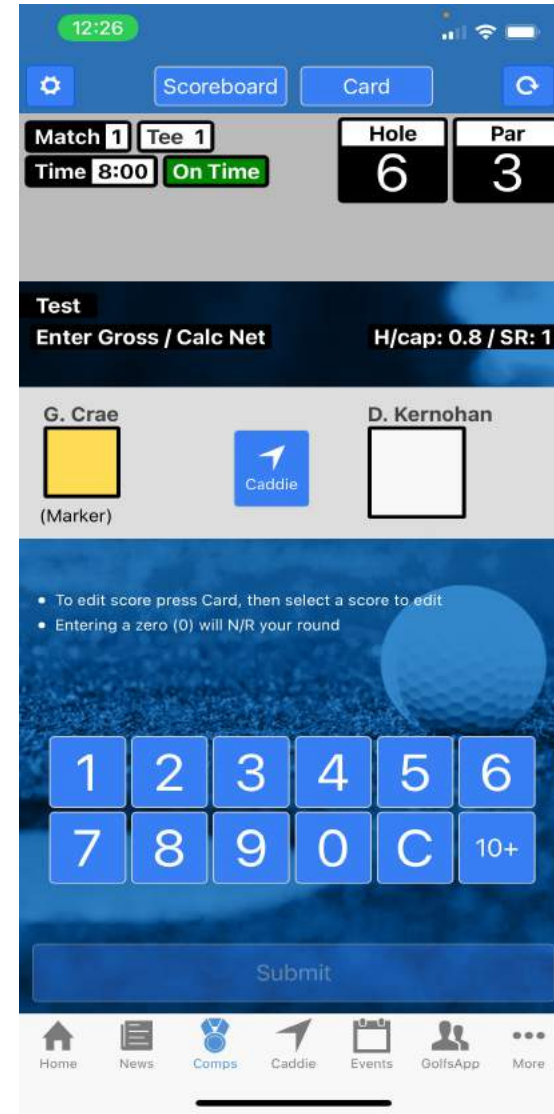

7. Select delete scores

8. Select Yes

9. You will now be back in the Scorecard and can continue scoring
